CONSENT TO TREATMENT

I voluntarily consent to receive (or have the patient named below, for whom I am legally responsible, receive) acupuncture and traditional Chinese medicine administered by licensed acupuncturists working at Three Wells Acupuncture Clinic, Inc. who are licensed by the State of Illinois and certified by the National Certification Commission of Acupuncture and Oriental Medicine. **I understand that his/her training is in acupuncture and traditional Chinese medicine and that (s)he is not, nor claims to be, a medical doctor. I understand that the evaluation given to me in no way purports to be, or replaces, allopathic (western) medical evaluation, diagnosis, or treatment.**

I have provided a full history and description of complaints which are complete and accurate. I understand that no guarantee has been made concerning the use and effects of acupuncture and traditional Chinese medicine. I understand that I may discontinue treatment at any time.

I understand that acupuncture is the insertion of fine, sterile, single-use needles. As part of traditional Chinese medicine, the methods of treatment may include, but are not limited to, liniments (herbal ointments), gua sha (muscle scraping technique), cupping (myofascial release), moxa (heat therapy), tui na massage, electro-stimulation, herbal supplements, and eastern nutritional counseling, as appropriate to treatment.

I have been informed that acupuncture is a generally safe method of treatment but that, although rare, certain side effects may result. These may include slight bleeding, minor bruising, or some discomfort at the site of needle insertion. Other possible risks from acupuncture include dizziness, fainting, or light-headedness. Extremely rare risk of acupuncture includes nerve damage, organ puncture, and infection. Extremely rare risk of heat therapy includes discomfort or burning. The herbs and nutritional supplements (from plant, animal, and mineral sources) that have been recommended are considered safe in the practice of Traditional Chinese Medicine, although some may be toxic in large doses. I understand that some herbs may be inappropriate in pregnancy. Rare but possible side effects of taking these supplements could be nausea, gas, stomachache, vomiting, headache, diarrhea, rashes, hives, and tingling of the tongue. **I will immediately notify my acupuncturist if I feel any of the aforementioned symptoms during or after an acupuncture treatment, or any unpleasant or unanticipated effects associated with the consumption of herbal supplements obtained from this clinic.** I do not expect the acupuncturist or clinical staff to be able to anticipate and explain all possible risks and complications of treatment. I will notify the acupuncturist or clinical staff if I am or become pregnant, if I have a severe bleeding disorder, or if I am wearing a pacemaker or other electronic medical device.

By signing below, I show that I have read, or have had read to me, the above consent to treatment and have had an opportunity to ask questions. I intend this consent form to cover the entire course of treatment for my present condition and for any future condition(s) for which I seek treatment.

EASTERN NUTRITION INFORMED CONSENT

According to the Federal Food, Drug and Cosmetic Act, as amended, Section 201 (g) (1), the term "drug" is defined to mean: *"Articles intended for use in the Diagnosis, Cure, Mitigation, Treatment or Prevention of disease."* A vitamin is not a drug, neither is a mineral, trace element, amino acid, herb, or homeopathic remedy. Although a vitamin, mineral, trace element, amino acid, herb, or homeopathic remedy may have an effect on a disease process or symptoms, this does not mean that it can be misrepresented, or be classified as a drug by anyone.

Therefore, please be advised that any suggested eastern nutritional advice is not intended as any primary treatment, nor therapy for any disease or symptom.

Herbal supplements, vitamin recommendations, or eastern nutritional advice is provided solely to upgrade the quality of foods in the patient's diet in order to supply good nutrition supporting the physiological and bio-mechanical processes of the human body.

Likewise, if requested by the patient, a hair analysis from ARL laboratories is not intended as a diagnosis and does not replace the recommendations given to you by your medical doctor.
